

Tao is a bench and chair series with a classical design. The structural combination of the cast aluminium support and the wooden planks inserted into the profile generates a much more resistant structure compared to other models.

FSC® Certified Wood | GFRP | Aluminium  |  175 cm/max |  55 kg |  3

 Update 03.12.2019

Origin

From the division of this primordial unity, *Tao*, the initial duality of yin and yang is born, the female and male principle present at the root of all material expression, in this case evident in the two materials integrated into this collection.

Robust

The insertion of the planks into the aluminium supports generates a robust, sturdy structure that ensures the dimensional stability of the wood in the event of potential deformations.

Ergonomic

The combination of the height and inclination of the seat, along with the height of the back and arm rests come together to make the *Tao* bench and chair extremely comfortable.

Material

The combination of a single support model and a single FSC tropical wood plank cross section allow for the assembly of the chair of 60 cm and the benches that are 180 cm in length with two supports, or a double bench with a length of 300 cm and three supports. Optionally, it incorporates GFRP planks in yellow or other colours, depending on the quantity.

Installation

Self-stabilising and installed directly on the paving or anchored to it with 4 DIN 913 M10x100 mm screws fastened with resin.

TAO

The Chinese word 'tao' usually means 'path', a circular path that starts out and ends at the same point. A path along which all living beings walk until they are reabsorbed by the tao where they originated.
