

*Lola* is a street lamp that has nothing to do with traditional proposals and maintains a balance between functionality and the expressive nature of the lamp holder. A white plastic rotary moulded cylinder suspended from its generator of an unequivocal origin transmits a classic lighting concept from indoors to outdoors, allowing it to be integrated in different urban contexts.

LED | CE | UNE-EN 40-5 | Galvanised steel | IP66 (opt.) | IK08 | ⚡ 10 KV | 📏 7 m/max | ⚖️ 116 kg

LOLA

Caveda Granero Romojaro 2007

Escofet®

#### Origin

Homologated as a site furnishing by the council of Madrid in 2006, the *Lola* street lamp was first installed in Plaza Castilla, Madrid, and later in Plaza del 2 de Mayo in Móstoles.

#### Protected

IP66 seal, IK08 protection against impacts and protection against transient overvoltages. It can easily be accessed for the inspection of the internal components from the top.

#### Material

Cylindrical post of 6 and 7 metros in length, made from galvanised, painted steel. White plastic rotary moulded lamp holder that is resistant to UV radiation on an injected aluminium casing and up to three LED modules of 25 W with a built-in diffuser.

#### Installation

All the columns are anchored with a base plate and four threaded bolts to a concrete foundation with the recommended generic dimensions. Unloaded and handled with slings, ensuring the post is protected from grazing.

- UNE-EN 60598-2-3:2003+Corr:2005+A1:2011 (en conjunción con UNE-EN 60598-1:2015)
- UNE-EN 62031:2009+A1:2013+A2:2015
- UNE-EN 50102:1996+A1:1999+Corr:2002+A1 CORR:2002
- UNE-EN 61000-3-2: 2014
- UNE-EN 61000-3-3: 2013
- UNE-EN 55015:2013
- UNE-EN 61547:2011
- UNE-EN 62493:2011

1.7 Advice

The light source of the lightings must be replaced only by the manufacturer or its technical service or by an equivalent qualified person.

The lighting should be installed such that prolonged staring at the lighting from a distance of closer than 2.8 metres is not expected.
