

*Stul* is a functional stool for sitting on or that inspires jumping games. It is ideal for green areas and children's playgrounds. It can also be used as a pylon with a swivel seat on private terraces or in indoor areas such as libraries or other institutions. It stands out for its lightness and wide color palette.

Polyethylene HDPE | Ø 60 cm | 12 kg | 1

Update 22.02.2022

**Origin**

*Stul* apperars to fill the need for a lightweight stool that can be combined with the rest of Air Collection.

**Modular**

*Stul* is a versatile stool and can be installed in multiple contexts. As a stool around a table, combined in groupings and even as a seat in children's play areas.

**Recycled and recyclable**

It is monomaterial and 100% recyclable. The option in black color is 100% recycled, and consequently it is an environmentally sustainable product.

**Non-porous**

The peculiarity of non-porous HDPE material means that its surface is easy to wash with pressurised water and a degreasing detergent that contains surfactants. It is disinfected with a hydro-alcoholic solution.

**Material**

Made with rotomolded HDPE polyethylene, it's available in a wide variety of colors. With a threaded inspection chamber cover permitting access to the interior.

**Installation**

Can be installed on the paving, and anchored, if required, using a hidden and removable system of screws recessed in the paving.
