

The *Universe* collection represents the purity of visual language in the traditional wood slat bench. On one hand, *Universe Up* has three seating and resting elements: bench, chair and chaise-lounge, in addition to the backless picnic bench and table. On the other, the *Universe Acc* accessories complement the collection of concrete benches from *Escofet*, providing for more comfortable uses in the public space.

FSC® Certified Wood |  180 cm/max |  44 kg |  4

 Update 26.10.2022

Origen

Universe Up came out of a series review to become a separate element from the accessory with the same name, manufactured by *Escofet* since 2017. It retains the cross-section in both the slats and the support bars, and it can be installed in two ways for projects that require both typologies. *Universe Acc* is born from the need to contribute new uses for different situations, we have created a set of simple, friendly, comfortable and universal accessories, suitable for any element that requires an ergonomic seat.

Versatile

The diverse *Universe* family provides visual lightness and various seating forms for having a rest in the city. Formally speaking, it marks a return to a traditional bench archetype, but using the *Universe* language. The chair and bench have armrests that blend naturally into the urban landscape of our cities. The chaise-lounge provides the user with longer, more comfortable armrests, while the picnic set allows for round-the-table seating

for a bite, a game or a chat. The *Universe Acc* system is designed for installation on walls built “in situ”, and as a complement to most backless bench models from the *Escofet* catalogue, such as *Sócrates*, *Longo*, *Box*, *Garonne* and *Godot*, among others.

Materials

The structure of the machined steel plate supports, with a thickness of 10 and 6 mm, zinc-plated and with silver textured, painted finish. Stainless steel also available. The seats are made from FSC® certified tropic wood boards with a cross-section of 40 x 35 mm, and they are supplied with or without a back and in two lengths: 600 mm and 1800 mm.

Installation

Universe Up rests on the pavement, with precise anchoring using M6 x 140 mm threaded rods set into 12 mm holes previously drilled into the pavement and filled with epoxy resin or heavy mortar. *Universe Acc* is installed with concealed anchoring to a wall or a bench with stainless steel screws and metal expansion plugs.

Universe adapts harmoniously to the backless benches of our collection and transfers us to a comfortable atmosphere.

1. Bench, backless bench, chair, stool, table and chaise longue

Universe Up	Bench	Chair	Backless bench	Stool
Dimensions	180 x 62 x 45 (82) cm	60 x 62 x 45 (82) cm	180 x 43 x 46 cm	60 x 43 x 45 cm
